

WaterMaster CS

Water Treatment for Multiple Food Service Equipment

The Water Master CS is specifically designed for multiple equipment requiring water. It provides superior water filtration as well as proprietary water treatment technology proven to control scale problems in ice makers and beverage equipment. The WaterMaster CS introduces FDA approved special treatment blend at a constant rate to maximize scale elimination.

BENEFITS

- Controls scale forming water before entering an ice maker or hot beverage equipment.
- Provides continuous ice or beverage production
- Reduces equipment maintenance
- Built in multi-stage filtration to prevent premature clogging of the filter
- Connect to cold water line
- Easy cartridge change out
