IOB NAME/NUMBER		

# Snapshot

The QTCR-1 is a single-cartridge water treatment system with a 15" Qwik-Twist cartridge that reduces sediment down to 0.5-microns and reduces chlorine, taste & odor, and chloramine at a flow rate of 1.7 gpm for 10,000-gallons.

# System Benefits

- Improves quality and consistency of cold and hot beverages.
- Reduces maintenance frequency and cost, and extends equipment life.
- Gradient-density sediment filtration protects against dirt, rust and other debris.
- High-capacity activated-carbon filtration makes water taste great and protects equipment against corrosive chlorine.
- Sturdy mounting bracket and full-flow inlet shut-off valve simplify installation.
- Inlet shut-off valve makes filter replacement quick and simple.
- Built-in pressure gauge allows visual monitoring of when filters need to be changed.
- Utilizes Qwik-Twist cartridges that make changing filters quick, easy and sanitary.

# **Application**

FOUNTAIN BEVERAGES - Single carbonator.

**COFFEE & TEA** - Applications where water hardness is not a problem.

**DRINKING WATER** 

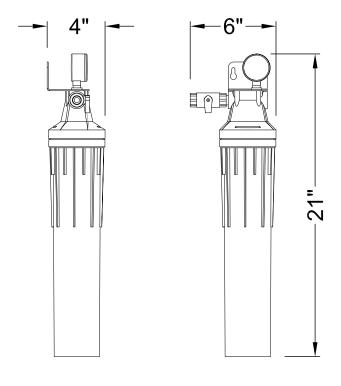

## **Installation Tips**

- Feed-water connection to system should be COLD only.
- Do not exceed system specifications for temperature and pressure.
- Allow 3" clearance below system for filter cartridge removal and replacement.
- Detailed installation, operation and maintenance manual included with each system.

Model: QTCR-1

Part #: 160-52131

#### Specifications

System		
Dimensions (Height x Width x Depth, Inches)	21" x 6" x 4"	
Connection - Inlet & Outlet	¾" FNPT	
Operating Pressure Range	10 - 125 psi (0.7 - 8.6 bar)	
Inlet Water Temperature Range	35° - 100°F (2° - 38°C)	
Shipping Weight	5 lbs.	
Performance		
Chlorine, Taste and Odor Reduction Capacity	10,000 gals. (37,845 L)	
Service Flow Rate	1.7 gpm (6.4 lpm)	
Sediment Reduction	0.5 microns (nominal)	

## Replacement Cartridge(s)

Model	Part Number	Qty
CTO-QCR2	300-05833	1

### Options

Model	Description	Part Number
Flush Valve Kit	QT Flush Valve Kit	160-52912

System certified by IAPMO R&T to NSF/ ANSI standard 42 for the reduction of Chloramine, Chlorine, Taste, Odor and Particulate Class III.

## Warranty

All system components and assembly except for filter cartridges, separation membranes, permeate pumps, electric motors, diaphragm pumps, and rotary vane pumps shall be warranted against defects in workmanship for a period of 60 months from the date of original shipment. For complete warranty information, contact OptiPure customer service or go to www.optipurewater.com.

It is recommended that pre/post-filters and mineral addition cartridges are changed every 6 months, when capacity is reached or when feedwater pressure or flow becomes inadequate.

Membrane life varies depending on feedwater conditions and pre-filter maintenance. It is 12-18 months under typical conditions, but it can be as long as 3-5 years.

This product is for commercial use only and must be installed and maintained according to manufacturer's guidelines.

Do not use on water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
